

Marquee Example Application Form

The quickest and most convenient way to apply for an Evacuation Scheme is by using the online form. Once you have submitted your application, it is easy to make changes if required to get the application approved. Once approved, you will be notified when you need to do any follow-up actions to keep your approved scheme current (i.e. to maintain it).

The following is an example of a completed online application form.

Please note that there may be some differences as some questions which may be marked as 'not required' on this example form may be required for your specific building. The online form determines which questions are required based on your answers to previous questions. For example, if you do not have a sprinkler system, the questions relating to that system will not be required; however, if you do have a sprinkler system you will be required to answer questions about it.
