5. Agreed Terms of Reference

1. Before entering the firegrounds

   - Report to the Incident Management Team and receive an incident briefing on the current incident and actions to date, including any health, safety and wellbeing matters.
   - When entering and leaving the incident ground, sign in and out with the relevant Incident Management Team.
   - Appropriate personal protective clothing must be worn at all times while on the fireground, this includes those who you may bring onto the fireground with you.

2. Determine the Origin and Cause of each fire including:

   - The investigation is to be conducted in accordance with the NFPA 921 and NZ edition of the Wildfire Origin and Cause Determination Handbook.
   - Look at the circumstances that lead to the fire.
   - Document any evidence found.
   - Record and photograph the general area of origin
   - Canvass witnesses, including consideration of information on social media and phone messages.
   - Interview relevant witnesses, may include:

   - Thoroughly document and describe the general area / point of origin of each fire.
   - Thoroughly document and describe the likely cause(s) for each fire.

Fire and Emergency NZ

| 3.	Working with other investigators (ie appointed for or by other interested persons):
	o Given the losses caused by the fires there is likely to be interest from a number of insurance companies who appoint their own qualified wildfire investigators to establish the origin and cause for some or all of the fires.
	o Where practical and in accordance with international best practice, you are to work with those insurance investigators appointed, especially in relation to the scene examination and any evidence testing that may be carried out.
	o If an insurance investigator wishes to obtain any documentation or other types of information held by Fire and Emergency NZ they are to request this through the Official Information Act request process.
	o Information that is already in the public domain (facebook, photos, videos, material on publicly accessible websites etc), may be compiled and shared with other investigators.
	o In the situation where any fire is considered suspicious, co-operation with other investigators or the sharing of any information with them in relation to that fire or fires is to have the prior approval of NZ Police.
4.	Separate from the Origin and Cause investigation Report, document any offences that may have been committed under the Fire and Emergency NZ Act 2017:
	• Document any offence believed to have been commited and include any supporting information for this conclusion.
	• Advise the Tasman Nelson District Principal Rural Fire Officer and Manager Rural Fire Christchurch as soon as possible where it is believed an offence has occurred.
5.	Advise the Tasman Nelson District Principal Rural Fire Officer if (and before taking any steps to engage or enter into any binding commitment):
	• Specialists or other experts are required to help conduct the orgin and cause investigation i.e. electrical engineer etc.
	• Arson or other criminal activity is suspected and the Police need to be notified.
	• A formal interview is required with a person.
6.	Completion:
	• A comprehensive wildfire origin and cause determination report is to be completed as part of the investigation.
	• A draft report is to be submitted to the Tasman Nelson District Principal Rural Fire Officer and Manager Rural Fire Christchurch for comment before finalising the report.
	• As part of quality assurance the draft report will be peered review by at least one Level 3 Wildfire Investigator or equivalent. This will be organised by the Manager Rural Fire Christchurch.

7. Specific Exclusions:
