

## FIRE RELATED PRODUCT RECALL NOTIFICATION

Evantair Heaters	
<b>28 June 2010</b> <b>ACTION - New Zealand recall</b>	
Problem	The heater has been supplied with a small amount of sleeving around the heating tubes. This sleeving may become dislodged, and as a consequence, there is a potential risk of fire.
Details	<p>References to the following Evantair heaters have been made in various recall articles:</p> <p>9400007524560 Heater 3 Bar Radiant 2100W</p> <p>9417648400979 Heater Convection Basic 2000W (CH-2000A BAS)</p> <p>9417648400962 Heater Convection Turbo 2000W (CH-2000A TUR)</p> <p>Heaters were sold through the Warehouse chain of stores nationwide between January 2005 and December 2007.</p>
What to do	Stop using the heater and phone 0800 422 274 during business hours or return it to the nearest Warehouse store to confirm if it is part of this recall, if so a full refund is likely to be given.
