

## FIRE RELATED PRODUCT RECALL NOTIFICATION

<b>Map-Pro, Propylene and MAPP gas cylinders</b>	
<b>22 March 2012</b>	<b>ACTION - New Zealand recall</b>
Problem	Due to a manufacturing defect complete shut-off of the cylinder valve may be delayed resulting in gas leakage. These leaks may pose a potential risk of fire or explosion.
Details	Map-Pro, Propylene and MAPP gas cylinders, with a batch code of 'W [month] D' through 'W [month] L' (no I-year). Batch codes can be found on base plate of cylinder.
What to do	<p>If the cylinder has never been connected to a torch or other device, do not use cylinder. Return it to the place of purchase for a full refund or exchange.</p> <p>If the cylinder is currently connected to a torch or other device, do not disconnect it. Take the cylinder outdoors; ignite the torch and burn off the entire contents. Disconnect the torch from the empty cylinder and dispose per the instructions on the cylinder label OR return it to the place of purchase for a full refund or exchange.</p> <p>If the cylinder has been connected to a torch or other device but is not connected now, attach the torch, take the cylinder outdoors, ignite and burn off the entire contents. Disconnect torch from the empty cylinder and dispose per the instructions on the cylinder label OR return it to the place of purchase for a full refund or exchange.</p> <p>Never leave lit torch and cylinder unattended. Use torch only in a well-ventilated area.</p>
