

Fire Related Product Recall Notice

Date issued: 15 January 2014

Parmco freestanding gas stoves

Parmco has issued a recall of certain freestanding gas stoves sold in New Zealand due to a potential gas leak.

Problem

There is a cracked gas valve in some Parmco freestanding gas stoves sold between April and October 2013.

	CZ 927	MADE IN PRC

Product code/Model here.

Serial number here.

What to do

If you have one of these models check the serial number. The serial number is inside the slide out drawer or on the rear panel of the appliance, or with your operating manual.

If your stove has one of these serial numbers:

Contact Parmco immediately on 0800 727 626 or email safety@parmco.co.nz.

Check the stove for a gas smell, ensuring you have turned off all burners first. If you find a leak shut the unit off at the gas main.

Parmco will send a service technician to replace gas valves on all affected models free of charge.

Contact

For more information contact Parmco New Zealand on 0800 727 626
