

## FIRE RELATED PRODUCT RECALL NOTIFICATION

Rheem Commercial Indoor Gas Water Heaters	
26 January 2010	
ACTION - New Zealand recall	
Problem	Under extended operating conditions the outer shell of the water heaters may exceed safe temperatures, potentially posing a burn risk. There is also the potential for combustion of materials that are inappropriately stored against or near the water heater.
Details	275 litre Rheem heavy duty commercial indoor gas water heater, model number A621275NO or 621275NOZ. Manufactured from 1 July 2008 to 20 November 2009. Model numbers and dates of manufacture can be found on the product label located at the top of the heater jacket.
What to do	Immediately remove any combustible materials near the water heater and make sure no-one comes into contact with it. Call 0800 657 336 to arrange on-site modifications free of charge. For more information please contact Rheem through their website <a href="http://www.rheem.co.nz">http://www.rheem.co.nz</a> or email <a href="mailto:rheem@rheem.co.nz">rheem@rheem.co.nz</a> .
