

Fire Related Product Recall Notice

Date issued: 05 May 2014

ThinkPad Notebook Computer Battery

Lenovo has issued a recall of certain ThinkPad notebook computer battery packs sold in New Zealand due to a potential fire hazard.

Problem

The battery packs can overheat, posing a fire hazard..

Details

Lenovo sold the batteries with new notebook computers or as optional or replacement batteries on the models listed below.

The following models may be affected:

ThinkPad T410, T420, T510, W510, X100E, X120E, X200, X201, X201s Series

Edge 11, Edge 13, and Edge 14 Series

Option P/Ns 43R9255, 51J0500, 57Y4186, 57Y4564, 57Y4565, 57Y4625, 57Y4559, 43R9254, 0A3627

These models may have shipped with 3-cell, 4-cell, 6-cell or 9-cell batteries.

What to do

If you have one of these models check the serial number on the battery pack. Recalled battery packs have one of the following part numbers starting with the fourth digit in a long series of numbers and letters printed on a white sticker below the bar code on the battery pack:

42T4695, 42T4711, 42T4798, 42T4804, 42T4812, 42T4822, 42T4828, 42T4834, 42T4840 and 42T4890.

If your computer has one of these serial numbers:

Contact Lenovo immediately on 0800 466 833

Until a replacement battery arrives, you should turn off the system, remove the battery, and only power your ThinkPad by plugging in the AC adapter and power cord.

Contact

For more information contact Lenovo New Zealand on 0800 466 833 or visit www.lenovo.com/nz
