11 July 2025

Ref: 18267

Tēnā koe [REDACTED]

Thank you for your email of 16 June 2025, to Fire and Emergency New Zealand requesting the following information for the most recent 50 newly built fire stations, under the Official Information Act 1982 (OIA):

- *Where the...new build fire stations were located? What was build cost? What was the land cost if any? What was the number of call outs each year for this fire station over the last 5 years?*

Thank you for agreeing to refine your request on 6 July 2025, to ask for all fire stations built since the establishment of Fire and Emergency on 1 July 2017. Please find attached, as **Appendix One** to this response, a list of the 32 fire stations that have been built since 1 July 2017. The data includes the following detail:

- region
- district
- year built
- total project cost; and
- land purchase cost

Key contact information for each fire station is available by searching by station name on our website.¹

Please find attached, as **Appendix Two** to this response, callout data for the 32 fire stations broken down by year since 1 January 2020. You will see the callouts are categorised by the following:

- **received:** the call was received by a station, requesting they attend an incident. Multiple stations may receive the call to attend.

¹ Fire and Emergency New Zealand website: <https://www.fireandemergency.nz/>

- **responded:** a fire appliance left the station to attend. In some instances, they may be asked to stand down on-route to the incident.
- **attended:** a fire appliance from the fire station arrived at the fire incident.

We trust that the information being provided is of assistance. If you require further information, please email officialinformationrequests@fireandemergency.nz

Please note that because of the identified public interest in the information that you have requested, we intend to publish this response (with your personal details removed) on our website.

Nāku noa, nā

Aidan Saunders
Manager, Information Requests
