

Fire Related Product Recall Notice

Date issued:

10 April 2018

Factorie - 4 port USB charging station

Sold at Factorie stores, factorie.com.au & cottonon.com/NZ from November 2017 to March 2018

Problem

The USB charging station can malfunction and overheat.

If it overheats, it may result in part of the charging station melting and a risk of causing a burn or potentially leading to a fire.

Details

4 Port USB charging station model UC 121
Colours: Rose Gold, Black, Silver and Camo
SAA-172037-EA marked on the rating label.

What to do

Stop using the charging station and return it to a Factorie store for a refund.
